

JOIN OUR TEAM!

HSE Advisor

The role

Are you a Health, Safety, Environment (HSE) professional looking to take the next step in your career with a company who design and build hi-tech uncrewed surface vessels (USVs).

We are seeking a dynamic HSE Advisor to join our team. Reporting to the Managing Director, this is a fantastic opportunity to play a key role in enhancing the company's HSE standards, practices and culture with the chance to make a real impact in an expanding company.

SEA-KIT's head office and manufacturing yard is based in Tollesbury, Essex.

Responsibilities

- Ensuring our operations are compliant with both UK legislation and in line with wider Group strategy for Health, Safety and Environment.
- Further develop and implement the Health, Safety and Environment Management System with the objective of achieving ISO 45001.
- Accurately track Health, Safety and Environment performance metrics, conduct thorough incident investigations, and identify root causes to prevent recurrence.
- Provide support and training to the workforce on health, safety and environment issues as required.
- Manage internal site and systems audits and inspections, and represent the company during external audits, ensuring compliance and driving improvements.
- Support the quality advisor to maintain ISO 9001 certification.

Who we're looking for

- Experience in a similar role within relevant sectors such as: engineering, marine operations, manufacturing, or related industry background.
- Ability to engage and influence a wide range of stakeholders, fostering a culture of safety and continuous improvement.
- NEBOSH / NCRQ Diploma or NVQ Level 5 (or equivalent). Ideally IOSH Chartered or Certified Member.

What we offer

SEA-KIT's vision is to be a world-class provider of high technology solutions to the maritime and research industries and to open new fields and classes of technology to solve the problems of the future, today.

▲ Redefining the way we work offshore

SEA-KIT provides a positive and dynamic work environment. You will gain immersive experience, where you will be at the forefront of cutting-edge technology, with opportunities to stretch and develop yourself whilst contributing to the emerging market of carbon-reducing uncrewed surface vessels.
